

The St. Stephen's International School Khao Yai Weekly Bulletin

2022 - 2023 Bulletin 17: Monday 6 March 2023

World Book Day

On Thursday 2nd March and Friday 3rd March, the primary students celebrated World Book Day with a range of different activities including reading to each other on the field, making bookmarks, decorating ducks and dressing up as their favourite book characters. There has been lots of talk around books and stories around the school but it has been lovely to see just how much the primary students are enjoying reading. *"Today a reader, tomorrow a leader."* – Margaret Fuller Secondary students were challenged to write six word stories and also took part in DEAR activities (Drop Everything And Read).

DATES FOR YOUR DIARY

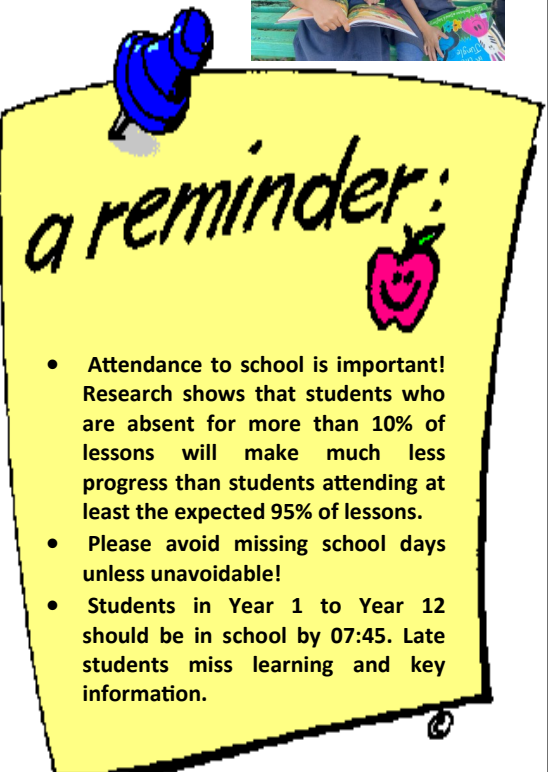

Monday 6 March – Saturday 11 March

- Monday 6 March**
ASA Programme

ASA Programme
- Thursday 9 March**
ASA programme
- Friday 10 March**
Year 5 / Year 6 Swimming Gala
ASA programme
- Saturday 11 March**
Dorm Trip—Scenical World Khao Yai

Primary

This week, Year 1 and Year 2 children have been exploring illustrations from our new focus text. The children have made inferences about a character from the story. In mathematics, the Year 2 children have been focusing on repeated addition to solve multiplication problem, whilst Year 1 have been focusing systematically recording number bonds to ten and twenty. Year 3 have launched their new IPC topic -Land, Sea and Sky. The artwork they have completed is wonderful, and is proudly on display in their classroom. In mathematics they continue to work on their multiplication and division facts for x8 tables. Year 4 have enjoyed launching their new IPC Topic- Land, Sea and Sky. The students have also this week made great progress in their understanding of adding and subtracting fractions. They have also started their new class novel, *The Wild Robot* by Peter Brown. Year 5 have enjoyed learning about fractions and their decimal equivalents. The students have been making connections between their learning on fractions and applying it to decimals. The class has made some excellent progress in their mathematics learning and are really trying hard with their subject specific vocabulary. They even played some games in a maths lesson! In IPC, the Year 6 students have begun 'They see the world like this' focusing on art from different cultures and historical periods around the world. The children are very excited about this topic! .

a reminder:

- Attendance to school is important! Research shows that students who are absent for more than 10% of lessons will make much less progress than students attending at least the expected 95% of lessons.
- Please avoid missing school days unless unavoidable!
- Students in Year 1 to Year 12 should be in school by 07:45. Late students miss learning and key information.

Dr Kevin Hylands
Head of Campus
